Talent Acquisition Services

We support our clients in acquiring top-notch talent from Africa using a headhunting approach and a vast database put together in over 10 years.

We use data and market information to support the process to ensure our clients benefit from candidates with not only the required skills but also the right attitude who can fit into their working culture.

Getting the right talent is key, managing them well is the secret to increasing productivity and reducing attrition.

We make the process of employee management easier by supporting companies through employee outsourcing/labour management services, payroll processing, and through HR Consulting services.

HR Transformation Services

There is more to HR Management than recruitment, processing of salaries, and day-to-day administration.

To get an edge, companies are getting more engaged in making the employee experience memorable and attractive.

One such way is through performance management, job evaluation, salary, and benefits survey services, and through a proper redundancy or offboarding program.

- Performance Management
- Redundancy Program
- Job Evaluation, Salary, and Benefits Surveys.
- Outplacement Services.
